EXPANDABLE HANDLING SOLUTIONS

About Us

Mosswood develops and manufactures professional equipment solutions designed to make production processes more efficient, organized and ergonomic.

Our product range includes drying and handling racks, material handling equipment, painting and finishing solutions, dust extraction and filtration equipment, and glass handling systems.

By focusing on the requirements of furniture manufacturing, woodworking, finishing and various industrial applications, we design and manufacture products that are durable, functional and user-oriented.

In addition to our standard product range, we also provide custom-sized and project-specific solutions to meet different production requirements and workspace configurations.

Mosswood – professional solutions designed to simplify your production.
